

JOB ANNOUNCEMENT:

Heavy Equipment Mechanic

OVERVIEW:

The Nicholson Construction Company Plant Operations welcomes your interest! Our goal is to provide mechanical and equipment supply and support to the various projects within the company.

The role of a **Heavy Equipment Mechanic** is to maintain and repair construction equipment, diagnose/repair diesel engine and hydraulic system problems, and load/unload trucks of construction equipment. In this position your responsibilities will include:

- Repair and set-up construction equipment to prepare for projects
- Modify equipment to meet project requirements through an understanding of diesel and hydraulic mechanics
- Work with equipment maintenance foreman and other technicians to design and build new and/or to improve construction equipment.
- Other duties as assigned

QUALIFICATIONS:

- High School diploma or GED
- Minimum 1-3 years experience as a heavy equipment mechanic
- Ability to take direction but also to work independently

ADDITIONAL QUALIFICATIONS:

- Knowledge of diesel or hydraulic mechanics
- Hydraulic and Mechanic Certification (education and training available)

If you are interested in applying for this position, send your resume and salary requirements to careers@nicholsonconstruction.com or fax to 412.221.4548, Attn. HR Department.
