
Nicholson Relocates Western District Office

NORTH SALT LAKE CITY, UT – November 17, 2009 – Nicholson’s Western District Office recently moved to a new location in North Salt Lake City, UT. The move was made to accommodate the recent growth and success Nicholson has experienced in the Western United States and enable Nicholson to better serve its clients.

According to Tom Hurley, district manager, “the new office has nearly twice the space and will support our goal in making our office a western regional hub. We also have an integrated 4-bay shop to service and maintain our local equipment fleet permanently stationed here in our 3-acre yard”.

The Western District has had an active 2009. Recent project highlights include:

- Salt City Plaza – Salt Lake City, UT (Jet Grouting)
- Intermountain Health Care, Murray, UT (Stone Columns)
- USTAR Utility Tunnel – Salt Lake City, UT (Soil Nail Wall)
- City Creek Center Block 75 – Salt Lake City, UT (Soldier Pile and Lagging Wall)
- Howard Hanson Dam – King County, WA (Grout Curtain)
- Department of Energy Hanford Site – Richland, WA (Jet Grouting)
- Canton Dam – Canton, OK (Diaphragm Wall, Anchors and Secant Piling)

The Western District can be contacted at:

Nicholson Construction Company
850 North 550 West
North Salt Lake City, UT 84054

About Nicholson Construction Company:

Nicholson is a versatile geotechnical contractor specializing in deep foundations, earth retention, ground treatment, and ground improvement. As the North American business unit of Soletanche Bachy, one of the world's leading geotechnical contractors, we are part of a global network of geotechnical resources and expertise. We work in a wide range of industries and environments, from power plants and dams, to bridges and skyscrapers. Headquartered in Pittsburgh, Nicholson has eight offices around the country to address each region's unique geotechnical construction needs.
