
Nicholson Names Andy Brengola New England District Manager

HUDSON, MA – December 1, 2009 – Andy Brengola, P.E. has been named District Manager of Nicholson Construction Company's New England district office in Hudson, MA. In his new position, Mr. Brengola will oversee Nicholson's New England construction operations and business development efforts.

Mr. Brengola has a B.S. degree in civil engineering from Syracuse University and an M.S. degree in geotechnical engineering from Tufts University. Prior to joining Nicholson, he was the New England Area Manager for Hayward Baker and worked as a geotechnical engineer for Haley and Aldrich in Boston. He is a registered professional engineer in Maryland and is a member of several organizations including the Boston Society of Civil Engineers, the Deep Foundations Institute, and the New England Marine and Foundation Contractors.

Nicholson's New England District has had an active 2009. Recent project highlights include:

- Orchard Street Transmission Repair – Springfield, MA (Jet Grouting)
- Brown University Creative Arts Center Providence, RI (Soldier Piles)
- Connecticut DOT Route 7 – Danbury, CT (Micropiles, Tieback Anchors)
- Dorchester CSO – South Boston, MA (Micropiles)
- Logan Airport – Boston, MA (Micropiles)
- CVS - Cumberland, RI (Soilnails)

Nicholson's New England district office was the former headquarters of Terra Drilling Company, which Nicholson acquired in January 2009. The acquisition has strengthened Nicholson's position in the New England market, where Terra Drilling had completed hundreds of piling, earth retention, and grouting projects since it was founded in 1984.

The New England district office can be contacted at:

Nicholson Construction Company
582 Main Street
Hudson, MA 01749

About Nicholson Construction Company:

Nicholson is a versatile geotechnical contractor specializing in deep foundations, earth retention, ground treatment, and ground improvement. As the North American business unit of Soletanche Bachy, one of the world's leading geotechnical contractors, we are part of a global network of geotechnical resources and expertise. We work in a wide range of industries and environments, from power plants and dams, to bridges and skyscrapers. Headquartered in Pittsburgh, Nicholson has eight offices around the country to address each region's unique geotechnical construction needs.
